

Dear MULTIPLEX fans,  
The 2017 Toy Fair is rapidly approaching, and will herald the introduction of some great new products from MULTIPLEX and HiTEC. Pictures, videos and comprehensive descriptions will be published in less than two weeks. In the meantime we hope to keep you on tenterhooks with a few software updates and magazine reviews.

## MULTIPLEX product of the month

---

### Field box - the perfect travel companion

A robust all-purpose box suitable for a wide range of applications in modelling. The box includes five swivelling drawers, tool holders, snap-lock fittings and a numerical lock. Dimensions: L x W x H: 405 x 215 x 305 mm. *Now available from model shops at a greatly reduced price!*

Field box, size 1

# 76 3319

**112.90 €\***

## Software update

---

### POWER PEAK D7 firmware update

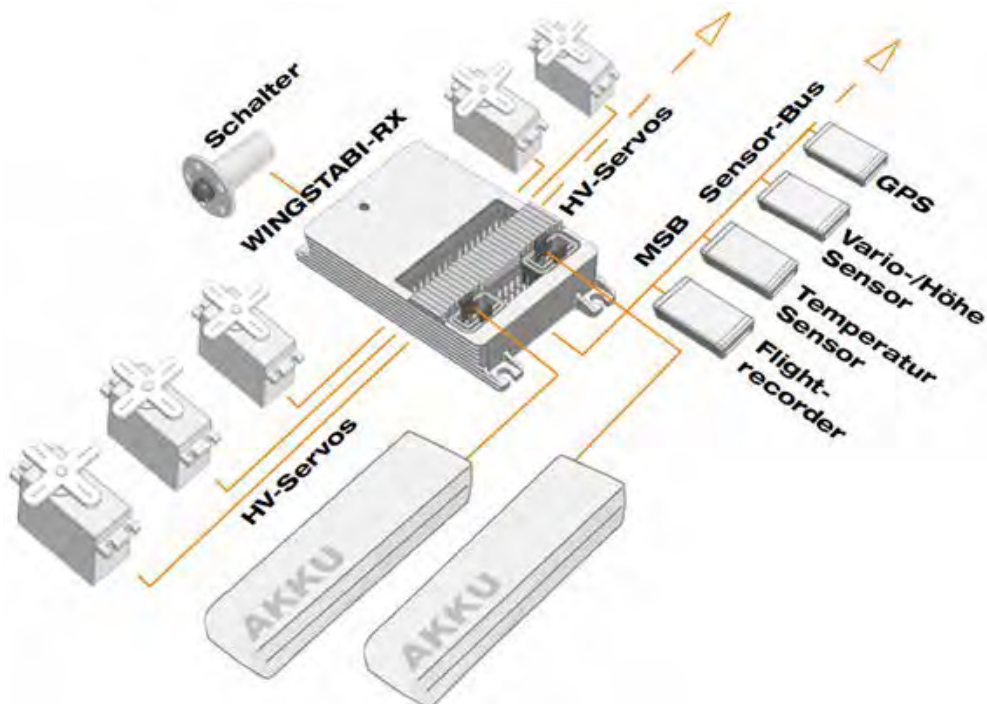

### New software V1.06:

- LiHV mode (until now LiHV batteries could only be charged in LiPo mode. This necessitated changing the TVC voltage manually to 4.35 V. As of V1.06 it is possible to charge LiHV packs in the normal way using the BID system)
- As of V1.06 it is possible to charge two-cell LiXX batteries without a balancer after a security query.
- "Bug-fix"

### Free Download

The zip file "Power Peak D7 Firmware Update V1 0 6 (DE)" contains the .EXE file and brief instructions for installing the update.

### Technical tip

## HV servos

For a dual power supply with integral battery backer use the SAFETY-SWITCH 12HV TwinBatt. The reliable, low-cost alternative to conventional switch harnesses is the SAFETY-SWITCH 12HV.

## Mix standard and HV servos!

This unit makes it possible to operate servos and receivers designed for use with 2S LiPo batteries with "normal" 4.8 / 6 V servos.

## Servo Voltage-Regulator

# 8 5066

24.90 €\*

Receiver: WINGSTABI RX-16-DR pro M-LINK including 35 A battery backer

Receiver batteries: 2 x ROXXY EVO LiPo 2 - 2200 30C with BID chip

Switch harness: "Professional" safety switch for Antiflash

Sensors: GPS, Vario / altimeter sensor, Flight-recorder, Temperature sensor

Servos: HiTEC

## Fairs & Events

**Nuremberg Toy Fair**, 01.02 - 06.02.17

*Please note: admission to trade visitors only!*

**3rd MULTIPLEX Airshow**, 13 / 14.05.17, Bruchsal airfield

The spectacular airshow for radio-controlled model aircraft with the world's best RC pilots. Dusk flying and fireworks on the Saturday, and all with free admission.

## Magazine reviews

Voted "Best of 2016" in the current issue of the Spanish model magazine AEROTEC - in three categories!

## FunCub XL

*"Without doubt the quality of the materials used in the kit are the best on the market - it's indisputable. The model offers endless possibilities, and the power set is very capable."*

**Aerotec 1/2017**

## **EXTRA 330SC designed by Gernot Bruckmann**

*"In collaboration with Gernot Bruckmann and Mirco Pecorari (Aircraft Studio Design) MULTIPLEX has developed a model with few equals. In technological terms it is superior to everything else on the market."*

**Aerotec 1/2017**

## **COCKPIT SX 9**

*"The introduction of the COCKPIT SX 9 was one of the most important events of the year. The transmitter's revolutionary screen offers superb legibility even in brilliant sunlight or raven-black night. Programming is simple, as the symbols make everything totally intuitive."*

**Aerotec 1/2017**

## **WINGSTABI RX-16-DR pro M-LINK**

*Video review*

**Modellpilot-EU**

## **Contest scene**

---

## **MULTIPLEX dominates the Austrian Indoor Open AFM**

1st place: Gernot Bruckmann (HiTEC)  
2nd place: Martin Brandmüller (MULTIPLEX)  
3rd place: Marek Plichta (HiTEC)

**Warmest congratulations! MULTIPLEX M-LINK and HiTEC - systems for winners!**

With all best wishes  
Team MULTIPLEX
