

Dear MULTIPLEX-Fans,  
the 2017 season starts with new items and a competition. We hope you enjoy your reading.

**New MULTIPLEX products available right now!**

---

### EasyGlider 4

#### **The best EasyGlider of all time!**

The EasyGlider 4 is the fourth generation of this good-natured, robust electric glider with ailerons. Its particular strength is its effortless ability to make full use of thermals and other forms of lift whilst gliding at low cruising speed.

This ELAPOR® classic has now been revised based on the principle of "evolution, not revolution", and can claim to be 100% "Made in Germany". The MULTIPLEX EasyGlider has attained cult status, and is unsurpassed in its class. And that's why the EasyGlider 4 remains a genuine MULTIPLEX EasyGlider.

What's new:

- Wings fitted with ultra-light, high-strength square GRP spar
- M-Space technology for a rigid fuselage
- Detachable fin and tailplane for ease of transport
- Modern designed decal sheet with landing skid

- Efficient, lightweight ROXXY motor

<u>KIT EasyGlider 4</u>	# 21 4332	99,90 €*

## EXTRA 330 SC Indoor-Edition

### THE Indoor Extra 330SC

The MULTIPLEX Extra 330SC Indoor Edition is the perfect model for making a start in the world of 3D aerobatic flying. Designed by Gernot Bruckmann, and finished in his familiar light-blue colour scheme, the kit is a "must have" for all fans of EXTRA aircraft and 3D aerobatics. The EPP model is of very robust construction, and will survive virtually any piloting error. It is also capable of every imaginable aerobatic manoeuvre.

## RR EXTRA 330 SC designed by Gernot Bruckmann

### **RR version now in the orange MULTIPLEX colour scheme!**

This MULTIPLEX aerobatic model is the ultimate 3D freestyle machine for the experienced pilot.

The RR version is supplied completely factory-assembled. All you have to do is install your own receiver, charge the flight battery (3S- LiPo), plug in the wings and tailplane, and the Extra 330 SC is already ready for the air.

Feel just like World Champion Gernot Bruckmann flying the reduced-size ELAPOR® version of his successful aerobatic machine!

### **EC ELAPOR-Color**

#### **The paint that sticks - to its promises!**

Paints which adhere and cover perfectly, ideal for structural foam surfaces and ELAPOR® models.

The new formula makes application considerably easier:

- Produces perfect semi-matt surfaces
- Fast-drying
- Excellent covering power
- New formulation: no primer required
- Practical 400 ml can at a sensible price
- Also suitable for Depron and Styrofoam models

EC – ELAPOR-COLOR has been developed specifically to meet the particular requirements of foam surfaces. The new formulation includes a special additional primer function which eliminates the need for a separate primer. Give free rein to your imagination. The outstanding feature of this paint is its exceptional covering power. The paint is scratch-proof and weather-resistant, and adheres to all structural foams in current use, whether based on Depron or EPS.

EC – ELAPOR-COLOR: spray can, contents 400 ml, semi-matt

**New POWER PEAK products available right now!**

---

### POWER PEAK E7

### 12 V / 230 V dual charger with max. 20 A output

200 Watt outputs, charge current up to 20 A. The Power Charger, capable of very swiftly recharging your batteries at the field and at home.

The charger can be set up individually. Charge data from both outputs are displayed in clear form on separate, backlit graphic screens.

The menu system can be set to any of the following languages: German, English, French or Italian.

The powerful integral equalizer draws no current when monitoring the battery, and balances the cells at the high rate of 300 mA, which is ample even for batteries with capacities above 5 Ah.

**E7 EQ-BID**

**# 30 8127**

**199,90 €\***

## New HI TEC products available right now!

---

### Smart Charger H4 Plus

High performance 4-channel charger in full aluminium case and high quality back light display. Max. charge 300W with HiTEC channel bridge function. Temp sensor can be connected. Firmware can be upgraded by HPP-22 PC-interface.

- Battery voltage displays (LiXX)
- Warning signals, safety features

**Smart Charger H4+**

**# 114 129**

**304,90 €\***

### Full Metal Case Servos

### Ultra-premium digital 20 mm servos

These three ultra-fast HITEC D-series servos feature an all-aluminium case and all-titanium gears, and provide the highest servo travel resolution currently available on the market. A 32-bit MCU and 12-bit ADC technology ensure ultra-fine response characteristics and programming facilities.

<b><u>D-951TW</u></b>	<b># 116 951</b>	<b>169,90 €*</b>

## MULTIPLEX EasyGlider Competition

---

### Become the EASYGLIDER Champion!

The MULTIPLEX competition for radio-controlled model aircraft  
The EASYGLIDER Competition has been initiated by MULTIPLEX Modellsport GmbH & Co. KG for all RC pilots who love model flying. This one-brand contest gives all keen modellers the chance to measure themselves against other pilots whilst enjoying their exciting hobby. Any RC modeller - male or female - can take part in the EASYGLIDER Competition, which takes the form of a series of flying events to be run in conjunction with the model retail trade. The model flown in the competition is the MULTIPLEX EASYGLIDER.

### Real World vs. Online Game

Alternatively you can take part in the EASYGLIDER Competition on-line using the MULTIPLEX MULTIFLIGHT simulator, and fly your way into a place in the Final by that route. At the end of the season the grand Finals will be held in Germany, at which the title of EASYGLIDER Champion will be awarded. At that event there will be dozens of like-minded souls keen on all the fun of model flying, but there will also be valuable prizes in the form of model goods to be won.

To the competition!
