

Dear MULTIPLEX-Fans,

A warm welcome to the May issue of our newsletter for 2016. In addition to a number of new products in the fields of RC boats and cars, there has already been some action in the competition scene at this early stage in the season. Our team pilots have been busy proving their skills with a very wide range of RC models, at the same time demonstrating just how well MULTIPLEX / HiTEC products cut the mustard. We hope you enjoy this newsletter!

**New MULTIPLEX products available in model shops right now!**

---

**Be part of the team!**

Just in time for the start of the 2016 model flying season we are introducing these new MULTIPLEX shirts, made of pleasant jersey fabric. Printed on all sides, the MPX shirt creates a great Team Pilot look. All the usual sizes from XS to 4XL are available right now at a price of 14.90 €. MULTIPLEX - for real pleasure in modelling!

MPX shirt 2016 black, size XS	# 85 2940	14.90 €*
MPX shirt 2016 black, size S	# 85 2941	14.90 €*
MPX shirt 2016 black, size M	# 85 2942	14.90 €*
MPX shirt 2016 black, size L	# 85 2943	14.90 €*
MPX shirt 2016 black, size XL	# 85 2944	14.90 €*
MPX shirt 2016 black, size 2XL	# 85 2945	14.90 €*
MPX shirt 2016 black, size 3XL	# 85 2946	14.90 €*
MPX shirt 2016 black, size 4XL	# 85 2947	14.90 €*

New ROXXY products available in model shops right now!

---

### ROXXY® ROXXAR 20A

**ROXXY®**

Speed controller for model cars and boats fitted with 540-size standard and "tuning" motors with 20 A = from 16 turns.

- Forwards, neutral, dynamic brake, reverse
- Motor current up to 20A
- BEC 5V, max. 2-3 servos
- 41x47x26mm; 63g
- Power-on protection, excess temperature protection
- Low voltage power off

Typ: Motor Controller for brush motors

Functions: Forwards, neutral, dynamic brake, reverse

Operating voltage: 6 - 7 NC/NiMH

Motor current: 20A

BEC: 5V, max. 2-3 Servos

Connector system: 2,5mm<sup>2</sup> Tamiya

Safety Functions: aps, Rx-Filter, PCO, POR, hec 1 kHz, TP

Dimensions: 41 mm x 47 mm x 26 mm

Weight: 63g

**ROXXY® ROXXAR 20A**

**# 31 8619**

**34.90 €\***

### **ROXXY® ROXXOO 35WP**

Speed controller for model cars and boats fitted with 540-size standard and "tuning" motors with 35 A = from 12 turns, 25 A = from 15 turns, 20 A = from 16 turns.

- Forwards, neutral, dynamic brake, reverse
- Motor current up to 35A
- BEC 5V, max. 2-3 servos
- 37x45x25mm; 60g
- Power-on protection, excess temperature protection
- Low voltage power off
- Splashproof

Typ: Motor Controller for brush motors

Functions: Forwards, neutral, dynamic brake, reverse

Operating voltage: 5-10 NC NiMH or 6 V/12 V lead/acid

Motor current: 35A

BEC: 5V, max. 2-3 Servos

Connector system: 2,5mm<sup>2</sup> Tamiya

Dimensions: 37 mm x 45 mm x 25 mm

Weight: 60g

**ROXXY® ROXXOO 35WP**

# 31 8402

47.90 €\*

## ROXXY® NAVY 700

The ROXXY Navy Control 700 will not let you down!

ROXXY speed controller: forward - stop - reverse for standard brushed motors of the 500 to 700 size. Also suitable for multi-motor systems and high-performance power systems. Operating voltage range 6 to 28 Volt (6 to 24 V for lead-acid batteries). The extremely large heat-sink permits continuous load currents of up to 40 Ampere. The Navy Control 700 is of splashproof construction.

Typ: Motor Controller für brushed motors. Suitable for 500- to 700-size motors

Functions: Forward/stop/reverse

Operating voltage: 6-18 NC/NiMH, 6-24V lead acid

Motor current: 40A

Short time current: 70A

Safety Functions: OPTO, RX-Filter, PCO, POR, hec 1 kHz, TP, WP

Dimensions: 75 x 67 x 39 mm

Weight: 231g

**ROXXY® NAVY 700**

## Reader's choice - FlugModell magazine

No fewer than two MULTIPLEX ELAPOR® models won first place in the Readers' Choice "Model of the Year" awards run by "FlugModell" RC magazine.

1st place in the Power Model category: ROCKSTAR

1st place in the Electric Glider category: HERON

Thanks to all you readers of the magazine for your faith in our products.

And our heartfelt thanks to the Editors of Flugmodell too - for presenting us with two awards!

Join us in celebrating the **ROCKSTAR!**

Model of the Year - special offer

**KIT ROCKSTAR** # 21 4278 174.90 €\* *instead of 199.90 €\**

**RR ROCKSTAR** # 26 4278 339.90 €\* *instead of 389.90 €\**

*For a limited period; only while stocks last!*

This month's tip

---

Maximum comfort when flying

The MULTIPLEX Team neckstrap pad makes a significant difference to your comfort when flying. With hook-and-loop attachment, fits the PROFII transmitter strap.

**Neckstrap pad** # 8 5641 17.90 €\*

**Transmitter neckstrap** # 8 5711 34.90 €\*

## Magazine reviews

---

### **FUNCUB XL**

*"The FunCub has grown up. In the XL version it is transformed from a carefree, lightweight fun machine into an extremely versatile aircraft which demands to be taken seriously. The spectrum of applications ranges from aero-tow via freight-drop and parachute release right up to aerobatics."*

**Conrad Club magazine CMC actuell 02/2016**

### **COCKPIT SX 7 / 9**

*"Well-deserved praise is due to MULTIPLEX for the transmitter's full-colour touch-screen, integral telemetry function and speech output. The COCKPIT SX software features a large number of functions (...) In practical use the outstanding features of this mid-range radio control system are its extensive fittings and - both in terms of ergonomics and visual appearance - first-class design. Once you've held the transmitter in your hands, you find that you don't want to put it down again - and with an operating time of almost 24 hours even that's no problem."*

**RC Heliaction 5/2016**

### **COCKPIT SX 7 / 9**

*"In my opinion the COCKPIT SX 7 / 9 is currently the easiest transmitter to operate that I've encountered. Anyone who can manage a smartphone and is conversant with the usual model flying terminology can swiftly set up the functions on offer. The familiarisation time is extremely short. The only limits are those set by the software and the pre-programmed mixer functions. Provided that the available range of mixers meets your needs, and you don't require any free mixer functions, you will find the COCKPIT SX 7 / 9 a splendid transmitter with first-class hardware, and what's more: it's all "Made in Germany". We can look forward to seeing what new functions MULTIPLEX will be able to offer via the Update system in the course of time."*

**Conrad Club magazine CMC actuell 02/2016**

### **MULTI flight PC flight simulator**

*"The MULTIPLEX MULTIflight flight simulator, in conjunction with the M-LINK MULTIflight USB stick, provides a low-cost means of test-flying current MULTIPLEX models as well as learning the basic skills of model flying. The proven engine from the REFLEX XTR program provides convincingly realistic flight physics. If you would like to fly more models at new flying fields, you will need to update to the Plus version, for which you have to pay. The hardware requirements are modest, and should be satisfied by any reasonably up-to-date PC. The outstanding features of the MULTIflight simulator are its successful representation of model flying characteristics. The combination of MULTIflight stick and a MULTIPLEX M-LINK transmitter is simply ideal. Plug and Fly!"*

**Conrad Club magazine CMC actuell 02/2016**

## Great success for MULTIPLEX / HiTEC team pilots

---

### **Youth Champion with the PROFI TX**

Last weekend MULTIPLEX team pilot Markus Janzer managed to nab first place in the F5J class at the Swabian Youth Championships. Hats off to you, Markus!

### MULTIPLEX wins the French Trophy

At the French Trophy RC racing boat competition, held at Metz, Sebastien VIDÉMONT took an excellent top place on the podium. Second place was won by Alexander Koklanakis, who stepped up to the start line for the first time with his new MULTIPLEX Cockpit SX 9. Alexander's comment on his new Cockpit SX 9: "It's amazing how well the new transmitter fits the hands - it's a real advantage!"

### Victory in the FSR-V race at Dessau-Roßlau

The first International FSR-V race in 2016 turned out very well for the MULTIPLEX Team skipper Winfried Ott.

Winfried Ott:

1st place, FSR-V 7.5 cc "with a lead of four laps, thanks to Novarossi and

Multiplex Royal"

Warmest congratulations! MULTIPLEX M-LINK - system for winners!

Best wishes  
Team MULTIPLEX
